TECHNICAL SHEET

COOL TOUCH SERIES

COOL TOUCH trousers

MC1142Q5

MATERIALS

Soft-effect brushed stretch twill, 97% cotton, 3% spandex. Cationic stretch inserts made of 97% polyester, 3% spandex.

WEIGHT

320 g/m²

FEATURES

Work trousers made from versatile fabric, designed to ensure maximum safety, comfort and functionality in daily activities in work environments, where practicality is essential. The high percentage of cotton, combined with technical fibers and the stretch fabric component, contributes to perfectly balancing protection and comfort, making the garment soft and breathable without compromising robustness and mechanical resistance. The stretch fabric,in combination with the elastic side inserts at the waist, promotes the operator's freedom of movement, allowing for dynamic postures during work activities. The triple interlocking seams ensure high wear resistance, ensuring superior durability even under intensive use conditions. The 5 pockets make it extremely functional and practical, allowing to always have at hand the indispensable tools and objects during work.

DETAILS

- 2 side pockets;
- Technical pocket on the left, allows for storing bulkier items, without the risk of them falling out;
- Zip pocket on the right, with pen holder in contrasting color, to ensure quick and convenient access to smaller items;
- Right back pocket closed by a flap in cationic fabric with contrasting color and velcro;
- Side elastic inserts at the waist, allow maximum freedom of movement, without restrictions.
- Stretch fabric, allows for dynamic postures during work activities; without subjecting the operator to additional stress;
- Triple interlocking seams, with contrasting thread on the central seam, in the points most subject to stress and wear, to ensure greater resistance and durability.

CLOSING

Zipper and tack button
